GOVERNED PERSONAL INTELLIGENCE

The personal intelligence OS with governance built in.

Persistent memory. Autonomous agents. Human approval gates. One runtime.

DIFFERENTIATORS

What makes this different

- Adaptive Intelligence Loop that calibrates expert weights and compounds learning across every session.
- Constitutional governance via Sentinel -- safety constraints enforced at the architecture level, not bolted on.
- Local-first, Mac Mini-native runtime. No cloud dependency, no latency, no vendor lock-in.
- Three-layer context architecture with progressive disclosure that scales as complexity grows.
- Human-authority-final design. Every consequential action requires explicit approval before execution.

CONTROL ROOM

Your agent stack, governed and live.

Three runtimes. One approval queue. Full local control.

PERMANENCE OS

WORKSPACE DIRECTORY

Tower

Every room is a workspace. Pick a floor and get to work.

FLOOR 07
Control Room
Local ops hub. System health, runtime status, and service controls.
Available

FLOOR 06
Trading Room
Market interface with live data feeds and position tracking.
Available

FLOOR 05
Terminal
Interactive shell. Run commands, query agents, execute workflows.
Available

FLOOR 04
Mind Map
Visual knowledge mapping and idea organization.
Available

FLOOR 03
Daily Planner
Task planning, scheduling, and daily operations workflow.
Available

FLOOR 02
Command Center
Dashboard for system metrics, agent coordination, and approvals.
Available

FLOOR LB
Lobby
Landing page. System overview and quick navigation.
Available

FLOOR --
Markets Terminal
Live equities, crypto, forex, and commodities terminal.
Available

FLOOR --
Night Capital
Venture intelligence and deal flow tracking.
Available

FLOOR --
AI School
Education modules and agent training resources.
Available

FLOOR --
App Studio
Operator profile, command builder, and integration tools.
Available

FLOOR --
Agent View
Live agent monitoring and interaction interface.
Available

FLOOR --
Comms Hub
Unified messaging across Telegram, Discord, and email.
